Meet Andy Gaertner of Bliss Dental in Kendall

Today we'd like to introduce you to Andy Gaertner.

Dr. Andy Gaertner was born and raised in Antwerp, Belgium. Having a father as one of the leading dentists of his country, he was exposed to high-quality dental care from a very early age. This played a major role in the development of his personal passion and knowledge in dentistry.

After high school graduation, he went to attend Nova Southeastern University in Florida where he completed his Bachelor of Science in Biology, followed by his Doctorate of Dental Medicine (D.M.D) degree. Dr. Gaertner

started practicing dentistry in the Southeast Florida area, followed by three years in his home country. He is now expanding his expertise as a Cosmetic and Family General Dentist in Miami.

The drive to guarantee the highest quality of care and to constantly grow is the force behind the attendance of multiple national and international continuing education courses and local study clubs. Dr. Gaertner is fluent in English, French, Hebrew, Dutch and intermediate in Spanish. which allows him to communicate and optimize care for patients from all around the world. Dr. Gaertner also believes in complete health and balances his time with outdoor activities, proper diet and continuous exercise. He enjoys the diverse musical vibe and cultural art that South Florida has to offer. Patient satisfaction, comfort, cosmetic excellence, and quality of care are Dr. Gaertner's main priorities. He believes all patients should be treated like family. Dr. Gaertner has a way of making patients, even the most apprehensive ones, feel at ease and you will see how comfortable you will feel putting your dental health in his hands.

We're always bombarded by how great it is to pursue your passion, etc – but we've spoken with enough people to know that it's not always easy. Overall, would you say things have been easy for you?

The road has been long, with many years of studying and improving skills. The journey has been nothing but rewarding filled with many unforgettable experiences. This long and smooth road has shaped Dr. Gaertner's personalized way of treating each and every single one of his patients just like they deserve to be treated.

So, as you know, we're impressed with Bliss Dental – tell our readers more, for example what you're most proud of and what sets you apart from others.

Bliss Dental is a General and Cosmetic Family Dental Practice where every patient gets treated just like family. All procedures of dentistry get provided to our patients, from Fillings and Cleanings to Root Canals, Dental Crowns, Porcelain Veneers, Orthodontics, and Smile Makeovers. We treat patients of all ages; from the moment a child has his/her first tooth all the way to the geriatric population.

Bliss Dental is a Comfortable State of the Art Modern Dental Practice, where patients get treated the way they deserve to be treated. We have extended work hours and even offer selective Saturday appointments. Patients do not wait more than five minutes before they get treated. We offer personalized

dental care and we stand behind all the work that we provide to our patients. I am extremely proud of Bliss Dental as a dental office, and for everything, it stands for. Come and see what the Bliss Dental experience is all about.

So, what's next? Any big plans?
The plan for the future is to keep Bliss Dental growing as a dental office and to be able to treat many more families with the same passion and drive we have been doing so far. No major changes besides expanding our expertise to Miami and its surroundings.
